11.1 DRAFT STRATEGIC INTERNAL AUDIT PLAN 2020/2021 – 2025/2026

REFERENCE: D2020/05734 (AC) – D2020/10532

PURPOSE OF REPORT

The purpose of this report is to present a draft internal audit programme for endorsement.

KEY POINTS AND RECOMMENDATION(S)

- In the past, a four (4) year cyclical programme had been developed to coincide with the CEO's legislative requirement to undertake reviews of the appropriateness and effectiveness of the financial management systems and procedures of the local government.
- At the Audit Committee meeting held on 10 March 2016 the Audit Committee endorsed a four (4) year audit programme (2016 – 2019), which was subsequently adopted by Council at its meeting of 24 March 2016.
- Paxon Group was awarded the tender to provide the internal audit services and the contract was executed on 2 June 2016.
- The tabling of the 2019 Internal Audit Report to the Audit Committee at its 6 June 2019 meeting, represented the completion of the four (4) year audit programme.
- Following some recent changes to the *Local Government (Financial Management) Regulations 1996* and the *Local Government (Audit) Regulations 1996* it is now a requirement to undertake a review of the appropriateness and effectiveness of the financial management systems and procedures not less than every three (3) financial years and to report to Council the results of these reviews.
- The plan now is to develop a three (3) year plus three (3) year internal audit function cyclical programme (2020/2021 – 2025/2026) to coincide with the CEO's new legislative requirements.

Recommendation(s)

That Council notes the review of the internal audit programme by the Audit Committee and endorses the draft Strategic Internal Audit Plan 2020/2021 – 2025/2026 forming the attachment to this report.

SOURCE OF REPORT

Chief Financial Officer

BACKGROUND

Among the duties and responsibilities of the Audit Committee is:

“To review the scope of the internal audit plan and programme and the effectiveness of the function. This review should consider whether, over a period of years the internal audit plan systematically addresses:

- *Internal controls over revenue, expenditure, assets and liability processes;*
- *The efficiency, effectiveness and economy of significant Council programs; and*
- *Compliance with regulations, policies, best practice guidelines, instructions and contractual arrangements.”*

At the Audit Committee meeting held on 10 March 2016 the Audit Committee endorsed a four (4) year audit programme (2016 – 2019), which was subsequently adopted by Council at its meeting of 24 March 2016. Paxon Group was awarded the tender to provide the internal audit services as part of the four (4) year audit programme and ending in 2019.

Item 11.1 continued

The *Local Government (Financial Management) Regulations 1996* were amended on 26 June 2018. Regulation 5(2)(c) now requires the CEO to undertake reviews of the appropriateness and effectiveness of the financial management systems and procedures of the local government regularly (and not less than once in every three financial years) and report to the local government the results of those reviews. Previously, the review was to be undertaken not less than once every four years.

Regulation 17 of the *Local Government (Audit) Regulations 1996* was also amended on 26 June 2018. This new amendment requires the CEO to review and report on the appropriateness and effectiveness of the local government's systems in regard to risk management, internal control and legislative compliance. The report and review process is to occur at least once every three (3) financial years. Previously these functions were required to be reviewed every two (2) calendar years.

REPORT

The internal audit function is acknowledged as providing continuous improvement and is considered an important governance function. It also assists in providing effective risk management and internal control processes.

The tabling of the 2019 Internal Audit Report to the Audit Committee at its 6 June 2019 meeting marked the completion of the Strategic Internal Audit Plan 2016-2019.

Based on the previous Strategic Internal Audit Plan 2016-2019 and following discussions with the internal auditor, as well as incorporating the audit findings from the Internal Audit Reports for the past 4 years, an updated document, entitled "Draft Strategic Internal Audit Plan 2020/2021–2025/2026" (SIAP) has been developed (attached).

The internal audit programme has now been spread over a three (3) year (plus three (3) year) cycle to coincide with the new requirements of the *Local Government (Financial Management) Regulations 1996* for the CEO to undertake reviews of the appropriateness and effectiveness of the financial management systems and procedures of the local government regularly (and not less than once in every three (3) financial years) and report to the local government the results of those reviews (regulation 5(2)(c)).

The internal audit programme has also taken into account the requirement of the *Local Government (Audit) Regulations 1996* for the CEO to report on the appropriateness and effectiveness of the local government's systems in regard to risk management, internal control and legislative compliance every three (3) financial years.

Once the draft 2020/2021 – 2025/2026 SIAP has been approved by the Audit Committee it is intended that the document will form the basis of the specification for the internal audit function of the EMRC.

STRATEGIC/POLICY IMPLICATIONS

Key Result Area 3 – Good Governance

- 3.3 To provide responsible and accountable governance and management of the EMRC
- 3.4 To continue to improve financial and asset management practices

FINANCIAL IMPLICATIONS

The annual cost of the internal audit programme has been provided for in the adopted 2019/2020 annual budget and five year forecasts.

1. INTERNAL AUDIT FUNCTION

The internal audit function within a business covers dual roles, namely a compliance or oversight role and a consulting role aimed at assisting the business with a continuous improvement process.

The operation of the Internal Audit function should be in accordance with the Institute of Internal Auditors Professional Practices Framework (PPF). The PPF consists of three categories of guidance: Standards and Ethics, Practice Advisories, and Development and Practice Aids. During the development of the PPF, the definition of Internal Auditing was amended to the following:

Internal auditing is an independent, objective assurance and consulting activity designed to add value and improve an organization's operations. It helps an organization accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes.

Based on the above definition, the audit types will fall under the following three broad categories:

- Risk Management (RM)
- Controls (C)
- Governance (G)

The objectives of each review will fall under the following two broad categories:

Assurance Audits (AA)

- Review the reliability and integrity of accounting and financial management information and control systems – the focus of these reviews includes tests of the accuracy, reliability, completeness, timeliness and usefulness of information.
- Ensure compliance with policies, plans, procedures, laws and regulations
- Safeguarding assets – these reviews focus on physical and logical security and include testing for risks such as fire, theft, improper / illegal activities.
- Efficiency and effectiveness of operations.

Consulting Audits (CA)

- During consulting engagements, the internal auditor will address risk consistent with the organisation's or unit's objectives and take into consideration the existence of other significant risks.

These will be listed in the "Audit Type / Objectives" column of the Internal Audit Plan. For example;

- a review of controls with the objective of providing assurance will be denoted as – C/AA.
- a governance review undertaken on a consulting basis will be denoted as – G/CA

Follow Up Reviews (FUR)

- Undertaken to determine whether recommendations from previous reviews have been implemented in a timely manner and are achieving the intended results.

The strategic internal audit plan and business rules detailed below are designed to assist in the delivery of an efficient and effective internal audit function.

4. STATUTORY REQUIREMENTS

4.1 Review of Financial Management Systems and Procedures

The financial management responsibilities of the CEO are established under Regulation 5 of the *Local Government (Financial Management) Regulations 1996*:

Efficient systems and procedures are to be established by the CEO of a local government:

- (a) For the proper collection of all money owing to the local government;
- (b) For the safe custody and security of all money collected or held by the local government;
- (c) For the proper maintenance and security of the financial records of the local government (whether maintained in written form or by electronic or other means or process);
- (d) To ensure proper accounting for municipal or trust:
 - i) revenue received or receivable;
 - ii) expenses paid or payable; and
 - iii) assets and liabilities;
- (e) To ensure proper authorisation for the incurring of liabilities and the making of payments;
- (f) For the maintenance of payroll, stock control and costing records; and
- (g) To assist in the preparation of budgets, budget reviews, accounts and reports required by the Act or these regulations.

The *Local Government (Financial Management) Regulations 1996* were amended on 26 June 2018. Regulation 5(2)(c) now requires the CEO to undertake reviews of the appropriateness and effectiveness of the financial management systems and procedures of the local government regularly (and not less than once in every three financial years) and report to the local government the results of those reviews. Previously, the review was to be undertaken not less than once every four years.

As part of the Strategic Internal Audit Plan, the Internal Auditor is to assist and support the CEO with the review to meet the above requirement.

4.2 Review of Risk Management, Internal Control and Legislative Compliance

Regulation 17 of the *Local Government (Audit) Regulations 1996* was also amended on 26 June 2018. This new amendment requires the CEO to review and report on the appropriateness and effectiveness of the local government's systems in regard to risk management, internal control and legislative compliance. The report and review process is to occur at least once every three (3) financial years. Previously these functions were required to be reviewed every two (2) calendar years.

As part of the Strategic Internal Audit Plan, the Internal Auditor is to assist and support the CEO with the review to meet the above requirement.

11.2 DRAFT CORPORATE BUSINESS PLAN 2020/2021 TO 2024/2025

REFERENCE: D2020/07721 (AC) – D2020/10534

PURPOSE OF REPORT

The purpose of this report is to present the draft Corporate Business Plan 2020/2021 to 2024/2025 to Council for adoption.

KEY POINTS AND RECOMMENDATION(S)

- Sections 5.56(1) and (2) of the *Local Government Act 1995* (the Act) require that each local government is 'to plan for the future of the district', by developing plans in accordance with the regulations. The *Local Government (Administration) Regulations 1996* specify that a 'plan for the future' comprises the following:
 - A Strategic Community Plan – a minimum 10 year timeframe (r.19C).
 - A Corporate Business Plan – a four to five year plan, which translates the 10 year strategic plan into operations (r.19DA).
- Council adopted the EMRC's Strategic Community Plan titled *10 Year Strategic Plan to 2017 to 2027* on 18 August 2016 for implementation from 1 July 2017 onwards.
- Regulation 19DA states that each local government must review its Corporate Business Plan annually.
- The previous Corporate Business Plan 2018/2019 to 2022/2023 has been reviewed and the *draft Corporate Business Plan 2019/2020 to 2023/2024* has been prepared (attached).
- The *draft Corporate Business Plan 2020/2021 to 2024/2025* sets out the actions that staff will undertake over the next five years to deliver on the 10 Year Strategic Plan 2017 to 2027.
- It is intended to provide regular update reports to Council on the Corporate Business Plan.
- Section 5.53 of the Act requires that an overview of the 'plan for the future' must be made in the Annual Report, including major initiatives that are proposed to commence or to continue in the next financial year. Therefore a report will be provided within the 2019/2020 Annual Report.
- In accordance with Section 6.2(2) of the Act, Council is to give regard to the 'plan for the future' when adopting the EMRC's Annual Budget.
- The 2020/2021 draft Annual Budget is tabled separately for adoption.

Recommendation(s)

That:

1. Council by absolute majority, in accordance with r.19DA(6) of the *Local Government (Administration) Regulations 1996*, adopt the Corporate Business Plan 2020/2021 to 2024/2025 forming an attachment to this report.
2. Local public notice of the adoption of the Corporate Business Plan 2020/2021 to 2024/2025 be given in accordance with r.19D of the *Local Government (Administration) Regulations 1996*.

BACKGROUND

Section 5.56(1) and (2) of the *Local Government Act 1995* (the Act) require that each local government is 'to plan for the future of the district', by developing plans in accordance with the regulations. The *Local Government (Administration) Regulations 1996 (the Regulations)* specify that a 'plan for the future' comprise the following:

- A Strategic Community Plan – a minimum 10 year timeframe (r.19C); and
- A Corporate Business Plan – a four to five year plan, which translates the 10 year strategic plan into operations (r.19DA).

Regulation 19DA states that the Corporate Business Plan (the Plan) is to:

- Be for a minimum of 4 years;
- Identify and prioritise the principal strategies and activities Council will undertake in response to the objectives stated in the Strategic Community Plan;
- State the services, operations and projects that a local government will deliver over the period of the plan, the method for delivering these and the associated cost;
- Reference resourcing considerations such as asset management plans, finances and workforce plans;
- Be adopted by absolute majority; and
- Be reviewed annually – this can be scheduled to align with the setting of the Annual Budget.

In addition to the above requirements local public notice must be given when the Plan is adopted or modified (r.19D).

Council adopted the EMRC's Strategic Community Plan titled *10 Year Strategic Plan to 2017 to 2027* (10 Year Strategic Plan) on 18 August 2016 (Ref: D2016/06163) for implementation from 1 July 2017 onwards and the EMRC's Corporate Business Plan 2019/2020 to 2023/2024 on 27 June 2019 (Ref: D2019/09611).

REPORT

Draft Corporate Business Plan 2020/2021 to 2024/2025

The EMRC has in place an integrated planning framework to ensure that strategic priorities drive operational activities and inform the annual budget.

The 10 Year Strategic Plan guides, at a strategic level, the direction that the EMRC will take over the next ten years towards achievement of its vision: *"To be a responsive and innovative leader in assisting Perth's Eastern Region to be a great place to live, work, play and do business"*.

The draft *Corporate Business Plan 2020/2021 to 2024/2025* is an element of the integrated planning framework and has been developed to articulate the strategic direction into operational activities. Both documents form the EMRC's 'plan for the future'.

Structure of the draft Corporate Business Plan 2020/2021 to 2024/2025

The draft *Corporate Business Plan 2020/2021 to 2024/2025* sets out the actions that staff will undertake over the next five years to deliver on the 10 Year Strategic Plan. It provides high level information on capital and operating projects planned over the next five years.

Item 11.2 continued

Annual Budget

Section 6.2(2) of the Act states that “in the preparation of the annual budget the local government is to have regard to the contents of the plan for the future of the district made in accordance with section 5.56”.

Both the 10 Year Strategic Plan and the draft *Corporate Business Plan 2020/2021 to 2024/2025* constitute the ‘plan for the future’, and Council is to give regard to both these when adopting the EMRC’s Annual Budget.

The 2020/2021 draft Annual Budget is tabled separately for adoption as part of this Agenda under Report Item 11.3.

Reporting

It is intended to report to Council against the Corporate Business Plan each quarter.

Section 5.53 of the Act requires that an overview of the ‘plan for the future’ must be made in the Annual Report, including major initiatives that are proposed to commence or to continue in the next financial year. A report will be provided within the 2020/2021 Annual Report.

Review & Significant Modifications

Regulation 19CA requires that any significant modifications to the adopted *Corporate Business Plan 2020/2021 to 2024/2025* must be reported through the Annual Report. The Act does not define what constitutes a ‘significant’ modification. Therefore there will be a need to exercise judgement and apply a test of materiality in determining whether to report any changes.

Adoption requirements

In accordance with r.19DA(6) of *the Regulations*, Council is to determine whether or not to adopt the Corporate Business Plan by absolute majority.

The draft *Corporate Business Plan 2020/2021 to 2024/2025* (attached) is before Council for adoption.

Perth's Eastern Region – A Snapshot

Perth's Eastern Region is an area of Perth which comprises six local governments: Town of Bassendean, City of Bayswater, City of Belmont, City of Kalamunda, Shire of Mundaring and City of Swan. The region constitutes around one-third of Perth's metropolitan area encompassing a land area of about 2,100 square kilometres and an estimated population of 365,500¹ people. The Region hosts Western Australia's major air, road and rail transport hub for movement of freight and passengers throughout Perth, intrastate, interstate and overseas. The region is considered the gateway to greater Perth, through the domestic and international airports or from the highways to the north and east. With a diverse regional economy, access to a skilled workforce and a range of leisure, lifestyle and living opportunities, Perth's Eastern Region is well positioned for continued growth and represents an attractive investment destination.

The Eastern Metropolitan Regional Council (EMRC) assists its member Councils to successfully turn challenges into opportunities and to ensure that the entire Region fulfils its potential as one of Western Australia's most vibrant and fast-growing areas.

About the Eastern Metropolitan Regional Council

The EMRC works in partnership with six member Councils located in Perth's Eastern Region - Town of Bassendean, City of Bayswater, City of Belmont, City of Kalamunda, Shire of Mundaring and City of Swan. Together, these six councils constitute around one third of the area of metropolitan Perth. The EMRC assists the councils to ensure that the entire region fulfils its potential as one of Western Australia's most vibrant and fast-growing areas.

OUR VISION

To be a responsive and innovative leader in assisting Perth's Eastern Region to be a great place to live, work, play and do business.

OUR VALUES

The values that govern the EMRC are:

EXCELLENCE – Striving for excellence through the development of quality and continuous improvement.

RECOGNITION – Valuing staff in a supportive environment that focuses on their wellbeing.

INNOVATION – Focus on innovative approaches in project and service delivery.

RESPONSIVENESS – Dynamic and flexible service delivery.

INTEGRITY – Accountability and consistency in all that we do.

OUR MISSION

EMRC, by partnering with member councils (and other stakeholders), facilitates strategies and actions for the benefit and sustainability of Perth's Eastern Region.

The EMRC's Service Delivery Model

The EMRC's Establishment Agreement provides for it to undertake a range of projects and services and provides a means for member councils to share resources and facilities. The cooperative, political and executive framework of the EMRC enables the member Councils individually and collectively to promote and advocate on issues for the benefit of local government and to better serve the community.

The EMRC represents a model of successful collaboration, and for 38 years, has initiated and led projects for its member Councils that deliver real economic, social and environmental benefits to the region in the areas of waste management and resource recovery, environmental sustainability and regional economic development. These services enable member Councils to enhance outcomes for their communities and for Perth's Eastern Region as a whole.

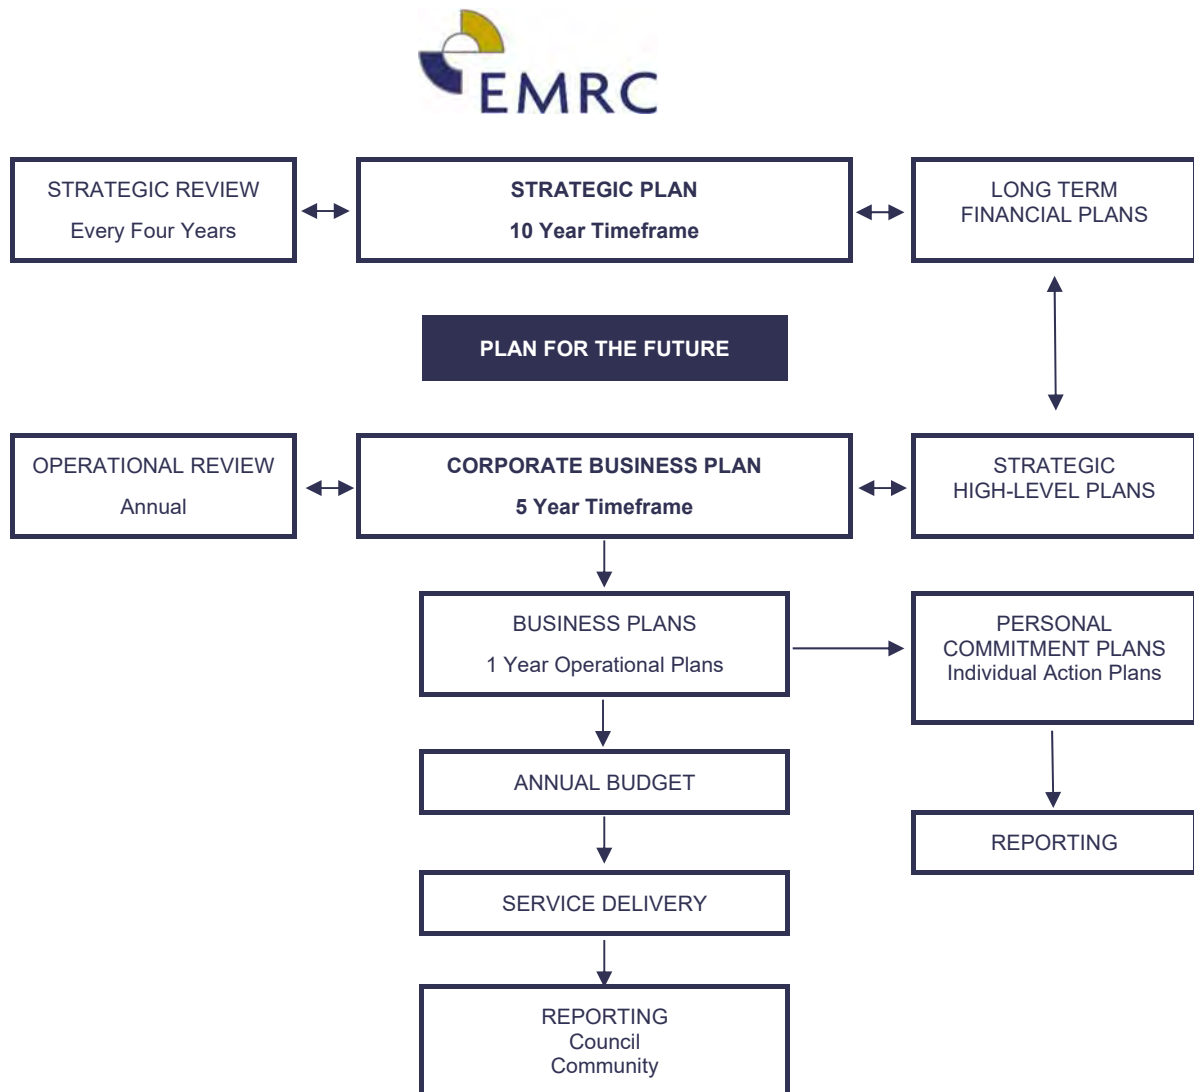

Key Stakeholders

Whilst the EMRC takes a lead role in implementing a range of initiatives, the partnership with stakeholders is critical in delivering sustainable outcomes for Perth's Eastern Region. The EMRC's stakeholders are:

- The EMRC and Member Council Elected Members
- The EMRC and Member Council Staff
- Customers and clients
- Other local governments and regional local governments
- Federal Government Agencies
- State Government Agencies
- Non-Government Agencies
- State and Federal elected members
- Educational institutions
- Regional Business Groups
- Regional Community and Reference Groups
- Businesses
- Regional Volunteers
- Regional Residents
- Visitors and Tourists
- Investors

Integrated Planning Framework

The EMRC's Integrated Planning Framework has been developed to ensure that programs and services are being delivered in alignment with the strategic priorities of the EMRC's key stakeholders. The 10 Year Strategic Plan identifies the overarching outcomes that the EMRC Council aspires to achieve. The Corporate Business Plan is used to drive operational activities and is aligned to the priorities identified in the 10 Year Strategic Plan. These documents two comprise the EMRC's Plan for the Future. Strategic high level plans guide development of actions which are prioritised during annual business planning workshops, and resourced through the annual budget.

Corporate Business Plan – Legislative Requirements

Section 5.56(1) and (2) of the *Local Government Act 1995* (the Act) requires that each local government is 'to plan for the future of the district', by developing plans in accordance with the regulations.

The *Local Government (Administration) Regulations 1996* (the Regulations) requires each local government to adopt a Strategic Community Plan and a Corporate Business Plan.

Both these documents comprise a local government's 'plan for the future' under the requirements of s.5.56 of the Act.

With reference to the Corporate Business Plan the Regulations state:

19DA. Corporate business plans, requirements for (Act s. 5.56)

- 1) A local government is to ensure that a corporate business plan is made for its district in accordance with this regulation in respect of each financial year after the financial year ending 30 June 2013.
- 2) A corporate business plan for a district is to cover the period specified in the plan, which is to be at least 4 financial years.
- 3) A corporate business plan for a district is to -
 - (a) set out, consistently with any relevant priorities set out in the strategic community plan for the district, a local government's priorities for dealing with the objectives and aspirations of the community in the district; and
 - (b) govern a local government's internal business planning by expressing a local government's priorities by reference to operations that are within the capacity of the local government's resources; and
 - (c) develop and integrate matters relating to resources, including asset management, workforce planning and long-term financial planning.
- 4) A local government is to review the current corporate business plan for its district every year.
- 5) A local government may modify a corporate business plan, including extending the period the plan is made in respect of and modifying the plan if required because of modification of the local government's strategic community plan.
- 6) A council is to consider a corporate business plan, or modifications of such a plan, submitted to it and is to determine* whether or not to adopt the plan or the modifications.
**Absolute majority required.*
- 7) If a corporate business plan is, or modifications of a corporate business plan are, adopted by the council, the plan or modified plan applies to the district for the period specified in the plan.

How to use the Corporate Business Plan

The Corporate Business Plan is informed by a suite of documents:

COMPONENT	DESCRIPTION	REVIEW
Corporate Business Plan	The Corporate Business Plan is an essential management tool designed to ensure that the organisation as a whole is able to deliver on Council's high-level priorities. It summarises the services, operations and projects the EMRC will deliver over the next five years.	Reviewed annually
Financial Plans	The 10 year and 5 year financial plans enable delivery of projects and services. Both these plans: <ul style="list-style-type: none"> ➤ project the EMRC's financial position over a period of time ➤ provide the EMRC reliable information to develop the capacity for maintaining financial sustainability ➤ enable the EMRC to fund and replace capital projects ➤ enable the EMRC to fund projects, programs and services ➤ enable the EMRC to manage investments 	Reviewed annually
Strategic Plans	Strategic high-level plans have been developed for specific issues. Examples include but are not limited to the following: <ul style="list-style-type: none"> ➤ Red Hill Development Plan – to manage the future development of Red Hill Waste Management Facility ➤ Food Organics and Garden Organics (FOGO) Strategy for the EMRC 2019-2022 ➤ Hazelmere Resource Recovery Park Development Plan (under review) A short description of each of the strategic plans can be found at Appendix One.	As identified within each plan

Notes:

- The Corporate Business Plan guides the development of the EMRC's annual Budget.
- This Corporate Business Plan provides high level information on capital and operating projects planned over the next five years.
- Planned capital projects in excess of \$100,000 and key projects, programs and services (operating budget) are included in the Corporate Business Plan.
- Detailed expenditure is provided in the five and ten year financial plans.
- Detailed project information is found in the relevant strategies and also in project plans

Delivering the Corporate Business Plan

The Corporate Business Plan identifies projects, programs and services that will be delivered over the next five years. To ensure that these meet our stakeholders' needs the EMRC has developed a number of strategic plans under each of the three Key Result Areas within the EMRC's **10 Year Strategic Plan 2017 to 2027**.

The strategic plans are key reference points identified and used during planning workshops. These form the basis for identifying priority projects and initiatives, which are then recommended to Council during the budget deliberation process for funding.

Structure of the Corporate Business Plan

The Corporate Business Plan is built on the foundation of three strategic Key Result Areas (KRA) identified within the **10 Year Strategic Plan 2017 to 2027**. The Corporate Plan sets out the actions that staff will undertake to deliver on Council's strategic priorities.

KRA 1: Environmental Sustainability

Our aim is to:

- Provide and maintain best practice waste management services which are sustainable, efficient and meet the needs of the Region.
- Deliver a range of environmental services that enable the Region and member Councils to meet their responsibilities and community expectations for sustainable and adaptive environmental initiatives, and to maintain and enhance the natural assets of the Region.

KRA 2: Economic Development

- Our aim is to facilitate and advocate for the sustainable economic and social development of the Region

KRA 3: Good Governance

- Our aim is to ensure that EMRC is a responsive, progressive and responsible organisation

Reporting and Review

Reporting

It is intended to provide periodic reports to Council against the Corporate Business Plan.

The *Local Government (Administration) Regulations 1996* (the Regulations) in relation to reporting states:

19CA. Information about modifications to certain plans to be included (Act s. 5.53(2)(i))

- 1) This regulation has effect for the purposes of section 5.53(2)(i).
- 2) If a modification is made during a financial year to a local government's strategic community plan, the annual report of the local government for the financial year is to contain information about that modification.
- 3) If a significant modification is made during a financial year to a local government's corporate business plan, the annual report of the local government for the financial year is to contain information about that significant modification.

Where applicable the EMRC will also provide a report against the Corporate Plan through its Annual Report.

Reviewing

The Corporate Business Plan will be reviewed annually in accordance with current legislation.

Any significant modifications will be reported through the Annual Report.

11.3 EASTERN METROPOLITAN REGIONAL COUNCIL (EMRC) 2020/2021 DRAFT ANNUAL BUDGET

REFERENCE: D2020/07724 (AC) – D2020/10537

PURPOSE OF REPORT

The purpose of this report is to present the 2020/2021 Draft Annual Budget for Council adoption.

KEY POINTS AND RECOMMENDATION(S)

- The 2020/2021 Draft Annual Budget has been prepared using the Ten Year Financial Plan 2020/2021 - 2029/2030 that has been reviewed and adjusted to take into consideration:
 - Forecast financial results for 2019/2020;
 - Budget provisions from 2019/2020 required to be carried forward into the 2020/2021 Budget;
 - The draft 2020/2021 fees and charges relating to Waste Management, Regional Services, and Administration; and
 - Other variations and adjustments as outlined within the report.

AC RESOLUTION(S)

That:

1. The Audit Committee endorses the EMRC 2020/2021 Annual Budget.
2. The EMRC 2020/2021 Annual Budget be referred to Council for adoption at its 18 June 2020 meeting.

AC RECOMMENDATION(S)

That:

1. Council, by absolute majority, in accordance with section 6.2(1) of the *Local Government Act 1995* and *Local Government (Financial Management) Regulations 1996*, adopts the EMRC 2020/2021 Annual Budget and supporting schedules which have been prepared in compliance with the Australian Accounting Standards.
2. For the 2020/2021 financial year a material variance percentage of 10% of the appropriate base, or a dollar value of \$20,000, whichever is the greater, be adopted for reporting variances in the statements of financial activity.
3. In accordance with Regulation 33 of the *Local Government (Financial Management) Regulations 1996*, a copy of the 2020/2021 Annual Budget be submitted to the Departmental CEO, Department of Local Government, Sport and Cultural Industries, within 30 days of its adoption by Council.

Item 11.3 continued

BACKGROUND

Section 6.2(2) of the *Local Government Act 1995* states “In the preparation of the annual budget the local government is to have regard to the contents of the plan for the future of the district made in accordance with section 5.56”.

EMRC’s Strategic Community Plan titled *EMRC - 10 Year Strategic Plan 2017 - 2027*, adopted by Council on 18 August 2016 (Ref: D2016/10193) and the Corporate Business Plan 2020/2021 to 2024/2025 (Ref: Report Item 11.2), considered as part of this Council Agenda, together constitute the EMRC’s ‘Plan for the Future’ in accordance with section 5.56 of the *Local Government Act 1995*. From 30 June 2017 onwards, both plans must be taken into account in budget preparations.

The 2020/2021 Annual Budget draws from the priorities as identified in the EMRC’s ‘Plan for the Future’.

As part of the budget preparation process, financial forecasts within the EMRC’s Ten Year Financial Plan are regularly reviewed in order to provide an indicative forecast of the EMRC’s ten year financial position.

The revised plan includes key assumptions which provide the framework for the 2020/2021 budget and includes fees and charges for Waste Management and Regional Services and project funding for Regional Services.

Budget reviews were undertaken by the Executive Leadership Team during February to May 2020 to ensure the budget accurately reflected the planned operations for 2020/2021 and beyond.

The EMRC’s Ten Year Financial Plan tonnage forecasts are reviewed regularly and have been used to derive forecast income and expenditure for the Red Hill Waste Management Facility and Hazelmere Recycling Facility. These tonnages are included within the budget document (refer attachment, page 39 of 50).

All business units have developed detailed financial estimates for 2020/2021 to 2029/2030. These estimates have been entered into the EMRC’s financial management system to produce the ten year financial forecasts.

As the EMRC will not commence the process of preparing its Annual Financial Statements for 2019/2020 until July 2020, the forecast results for 2019/2020 have been used as a basis for the finalisation of the 2020/2021 Budget.

REPORT

In producing the 2020/2021 Budget, the EMRC’s Ten Year Financial Plan has been reviewed and adjusted to take into consideration the following:

- Forecast financial results for 2019/2020; and
- Budget provisions from 2019/2020 required to be carried forward into the 2020/2021 Budget.

The budgeted 2020/2021 Net Result from operations of \$5,627,514 compares to a forecast surplus in 2019/2020 of \$7,856,460 (before distributions to member councils of \$18,789,200) and the budget in 2019/2020 of \$8,758,333.

Item 11.3 continued

Major variances to the 2019/2020 forecasts are attributable to:

- A provision of \$250,000 carried forward from the 2019/2020 financial year for the Strategic Review of the EMRC (the initial provision of \$300,000 was approved by Council at its meeting held on 22 August 2019 - Ref: D2019/11134);
- A provision of \$40,000 being the annual maintenance cost for diligent boards as approved by Council at its meeting held 19 March 2020 (Ref: D2020/05037);
- An increase in Waste Education costs of approximately \$423,000 associated with the implementation of the FOGO project (authorised allocation of \$500,000 to be funded from the Secondary Waste Reserve as approved by Council at its meeting held 19 September 2019 - Ref: D2019/14022);
- A reduction of approximately \$502,000 relating to Secondary Waste charges not collectable on FOGO tonnes; and
- A decrease of approximately \$1.022m in interest earnings due to the budgeted interest rate for 2020/2021 being set at 1.14% compared to a rate of 1.78% for 2019/2020. This rate was calculated from advice received from the EMRC's investment advisors and is reflective of the expected rates over the next 12 months.

Key Budget Assumptions

The following key assumptions have been used in development of the Ten Year Financial Plan and the 2020/2021 Budget:

- No increase be applied in the member Council base waste disposal charge;
- The Comprehensive Waste Education Strategy (CWES) Levy of \$3.50 per tonne (ex GST) to remain unchanged for 2020/2021;
- No increase be applied for the Secondary Waste charge since Council's resolution on 23 May 2019 (Ref: D2019/07296);
- No increase in the Commercial Waste Disposal charge of \$145.45 per tonne (ex GST);
- The C & I rate of \$135.00 per tonne (ex GST) remains unchanged for 2020/2021;
- The C & I Bulk Verge collection rate of \$150.00 per tonne (ex GST) remains unchanged for 2020/2021.
- Class III Contaminated Waste charge of \$147.00 per tonne (ex GST) remains unchanged for 2020/2021.
- The interim FOGO rate of \$88.50 per tonne (ex GST), inclusive of the \$3.50 per tonne (ex GST) Waste Education Levy, for member Councils remains unchanged for 2020/2021;
- The rate of \$52.73 per tonne (ex GST) remains unchanged for member Councils uncontaminated greenwaste disposed at the Hazelmere site;
- The rate for the sale of Premium Recycled Wood Chip has increased from \$44.55 per tonne/\$9.09 per m³ (ex GST) to \$64.55 per tonne/ \$13.18 per m³ (ex GST).
- The rate for the sale of Wood Chip (fines) has increased from \$62.41 per tonne/\$13.73 per m³ (ex GST) to \$72.27 per tonne/\$15.91 per m³.
- The rate of \$66.50 per tonne (ex GST) remains unchanged for Commercial uncontaminated greenwaste disposed at the Hazelmere site;
- Mattress disposal charges have been increased from \$16.36 (exc. GST) per mattress for member council residents and charitable organisations and from \$25.46 (exc. GST) for commercial clients to \$27.50 per mattress (exc. GST);
- The Regional Services consulting rates for 2020/2021 to remain unchanged;

Item 11.3 continued

Key Budget Assumptions (continued)

- Increased insurance premiums have been applied in 2020/2021 for property (10%), plant and equipment (5%) and liability (5%);
- The interest rate for term deposit investments for the 2020/2021 financial year is budgeted at 1.14% per annum;
- The Wood Waste to Energy facility has been budgeted for 6 months of operations commencing January 2021; and
- The funding for Regional Services projects is based on the schedules used in the Regional Services Funding Program presented to Council at its meeting held on 5 December 2019 (Ref: D2019/17869).

Tonnages - (page 38 of 46 of the attachment)

Budgeted total tonnages for 2020/2021 of 248,616 tonnes is above the 2019/2020 forecast of 242,988 tonnes and the 2019/2020 budget of 242,663 tonnes.

Class IV tonnages which have been budgeted at 5,000 tonnes for 2020/2021. This is the same as the 2019/2020 forecast of 5,000 tonnes and the 2019/2020 budget of 5,000 tonnes.

FOGO tonnages have been budgeted at 13,207 for 2020/2021 and represents tonnages to be received from the Town of Bassendean and the City of Bayswater as part of the FOGO Trial project.

Disposal Fees and Charges - (pages 30-34 of 46)

The member Council disposal charge for Class III waste for 2020/2021 has not been increased from the 2019/2020 rate of \$181.50 per tonne (ex GST).

EMRC Consulting Fees - (page 35 of 46)

No increase in the Regional Services consulting rates has been proposed for 2020/21/2020.

EMRC Administration Fees and Charges - (page 36 of 46)

No increase in the photocopier charges has been proposed for 2020/2021.

Statement of Comprehensive Income - (pages 2-3 of 46)

The budgeted "Net Result" is a surplus of \$5,627,514 for 2020/2021 compared with a budgeted surplus of \$8,758,333 for 2019/2020 and a forecast surplus of \$7,856,460 (before distributions to member councils of \$18,789,200)

Also provided is a Statement of Comprehensive Income by (Local Government) Program.

Item 11.3 continued

Staffing Levels

As part of the budget development, the following six (6) new positions have been identified in the 2020/2021 budget:

- 1 x Minute Taker - A proposed dedicated minute taker for Council and Committee meetings to compile minutes of meetings as well as providing support for the compiling of agendas.
- 4 x Production (Process) Operators and 1 x Electrician/Operator - Provision made for the staffing of the Wood Waste to Energy (WWtE) facility expected to be commissioned in the second part of the 2020/2021 financial year.

These new positions identified will not be filled automatically and will need to be supported by a business case at the appropriate time.

Staff Remuneration Structure

No increase in staff remuneration has been budgeted in 2020/2021.

Capital Works - (pages 40-46 of 46)

The total proposed Capital Works expenditure for 2020/2021 is \$24,066,114 which includes carried forward capital expenditure of \$7,400,284. This compares with the 2019/2020 budgeted expenditure of \$26,940,712 and the 2019/2020 forecast expenditure of \$19,918,069.

Major capital expenditure items for 2020/2021 including carry forwards are:

• Construction of Class III Cell (Stage 16) - Red Hill Waste Management Facility.	\$3,746,002
• Install Power Supply to Lots 8, 9 & 10 - Red Hill Waste Management Facility	\$2,500,000
• Purchase Waste Management Land	\$2,235,000
• Purchase/Replace Plant - Red Hill Waste Management Facility (\$26,025 carried forward from 2019/2020).	\$1,935,000
• Develop Lots 8, 9 & 10 For Future Waste Activities - Red Hill Waste Management Facility.	\$1,787,961
• Liquid Waste Project Infrastructure - Red Hill Waste Management Facility (\$1,550,000 carried forward from 2019/2020).	\$1,650,000

Statement of Cash Flows - (page 5 of 46)

The format of the Statement of Cash Flows separates “*Normal Operating Activities*” from Resource Recovery activities.

The budgeted net cash provided by normal operating activities is \$7,549,581. This represents a decrease of \$1,466,215 when compared with the 2019/2020 budget and a decrease of \$711,087 compared with the forecast position in 2019/2020.

Municipal Cash and Restricted Investments (Reserves) - (pages 6-9 of 46)

The cash and investments (Municipal and Restricted Investments) as at 30 June 2021 has been forecast to be \$67,742,491 compared with the forecast cash and investments as at 30 June 2020 of \$79,435,085.

The overall decrease year on year in budgeted cash (Municipal and Restricted Investments) is attributable to the capital expenditure exceeding the net budgeted operational cash flow during the 2020/2021 financial year. Funds have been set aside in Reserves and will be utilised in accordance with the budgeted expenditure.

Approximately 63.33% of total cash and restricted investments budgeted for 30 June 2021 will be held in the Secondary Waste Reserve (\$42,903,335) to fund the development of Resource Recovery Projects. Other restricted cash investments will be used to fund future capital works projects including:

- Major plant replacements at the Red Hill and Hazelmere Waste Management Facilities;
- Post closure Site Rehabilitation and Environmental Monitoring at Red Hill Waste Management Facility; and
- Future Class III and Class IV cell construction.

Reporting Requirements

It is a requirement of the *Local Government (Financial Management) Regulations 1996 - Regulation 34(5)* that a local government is to establish and adopt materiality levels either as a percentage and/or dollar value to be used in statements of financial activity for reporting variances.

Item 11.3 continued

Reporting Requirements (continued)

The concept of materiality is defined in the accounting standard, AASB 108 as:

“Omissions or misstatements of items are material if they could, individually or collectively, influence the economic decisions that users make on the basis of the financial statements. Materiality depends on the size and nature of the omission or misstatement judged in the surrounding circumstances. The size or nature of the item, or a combination of both, could be the determining factor.”

In determining whether the variance amount of an item is material, the variance is to be compared with the corresponding budgeted revenue and expense amount to the end of the month to which the statement of financial activity relates.

Since the 2015/2016 financial year Council has adopted 10% as the percentage, or a dollar value of \$20,000, whichever is the greater to be used when reporting variances. It is recommended that for the 2020/2021 financial year the materiality percentage of 10%, or a dollar value of \$20,000, whichever is the greater, be retained and adopted for reporting variances in the statements of financial activity.

Post Budget Preparation Event

There have been no post budget preparation events that will have a significant effect on the 2020/2021 draft budget.

VOTING REQUIREMENT

Absolute Majority

Notice of Alternate Motion Received from Cr Lesley Boyd

In accordance with Clause 9.1 of the *EMRC Standing Orders Local Law 2013*, Cr Lesley Boyd gave notice of her intention to table an alternate motion, which was distributed prior to the meeting.

Alternate Recommendation

That:

- 1. The Audit Committee defers the Report Item 11.3 EMRC 2020/2021 Draft Annual Budget to a future meeting of the Audit Committee.*
- 2. The Audit Committee requests explanation and a detailed briefing be provided which includes a detailed explanation of all capital budget items listed and the operating budget is detailed with explanations to all items that have changed by 10% from the previous year.*
- 3. Detailed information and rationale be provided to explain why an extra 6 staff listed on page 77 of the agenda is required.*

Rationale provided Cr Lesley Boyd

The EMRC councillors have not received sufficient time to review the details of what has been listed within the draft budget which makes it irresponsible for councillors to approve a budget that they do not understand and have clarity about what funds will be spent on.

OFFICER COMMENTS

Consistent with prior years' practice, the budget brief is presented at the June Audit Committee meeting for its consideration and recommendation to Council for approval. As part of that process the June Audit Committee meeting also includes a key strategic information session presentation demonstrating how the allocation of the EMRC's finances and resources are to be provided in line with the EMRC's adopted plans and strategies for the next financial year.

The budget has been prepared in accordance with the form and content as prescribed under r.22 of the *Local Government (Financial Management) Regulations 1996*.

The EMRC's Strategic Community Plan titled EMRC - 10 Year Strategic Plan 2017 - 2027, adopted by Council on 18 August 2016 and the Corporate Business Plan 2020/2021 to 2024/2025 constitute the EMRC's 'Plan for the Future' in accordance with section 5.56 of the *Local Government Act 1995*.

Therefore the 2020/2021 Annual Budget reflects the financial requirements derived from both of these plans in the annual budget preparations.

Item 11.3 continued

To ensure that all relevant information and details are made available to allow Council to make informed decisions, the report, the capital expenditure explanatory notes together with the presentation will be provided.

Should Councillors prefer more details than what has been prescribed by the *Local Government (Financial Management) Regulations 1996*, EMRC officers are prepared to assist, support and furnish Councillors with those details.

With regards to the six extra staff members, five of these extra staff relates to the Wood Waste to Energy (WWTE) project, of which the project and business case has already been approved by Council. Previously it was envisaged that the operations of the WWTE plant is to be outsourced. However, following a tender process, it has proven unviable and uneconomical.

The WWTE plant will be run by EMRC employees, and the five new staff members are required in addition to the staff already employed by the EMRC. As detailed in the report, the facility is expected to be commissioned in the second part of the new financial year.

The proposal for a specialist minute taker is currently under development and will be subject to a business case at the appropriate time before recruitment is to proceed. This role is reflective of the increase in governance aspects and specialisation of the preparation of agendas and minutes, including the implementation of the management of audio recording as well as the introduction of a new software for distributing agendas and minutes. Both of these changes have been previously approved by Council.

ALTERNATE RECOMMENDATION(S)

That:

- 1. The Audit Committee defers the Report Item 11.3 EMRC 2020/2021 Draft Annual Budget to a future meeting of the Audit Committee.*
- 2. The Audit Committee requests explanation and a detailed briefing be provided which includes a detailed explanation of all capital budget items listed and the operating budget is detailed with explanations to all items that have changed by 10% from the previous year.*
- 3. Detailed information and rationale be provided to explain why an extra 6 staff listed on page 77 of the agenda is required.*

Before seeking a seconder for the motion, the Chairman called upon the CEO to provide a presentation on the Draft Annual Budget 2020/2021.

Discussions ensued during the presentation.

Following the presentation, the Chairman sought a seconder for the alternate motion.

Cr Powell seconded the alternate motion.

Item 11.3 continued

The discussion among the Committee members was that there could be a briefing session held prior to the Ordinary Meeting of Council on 18 June 2020 to ensure there is continuity in the business operations.

The CEO confirmed that the budget will need to be adopted by Council no later than 31 August 2020 and reassured the Councillors that due to no changes to the fees and charges, other than mattress recycling, there will be minimal impact in the short term.

Cr Hamilton proposed an additional point 4 to the alternate motion for the Audit Committee to consider the report again prior to the 18 June 2020 Ordinary Meeting of Council.

The Mover and Seconder agreed to the additional point 4 to the alternate motion.

ALTERNATE RECOMMENDATION(S)

That:

1. The Audit Committee defers the Report Item 11.3 EMRC 2020/2021 Draft Annual Budget to a future meeting of the Audit Committee.
2. The Audit Committee requests explanation and a detailed briefing be provided which includes a detailed explanation of all capital budget items listed and the operating budget is detailed with explanations to all items that have changed by 10% from the previous year.
3. Detailed information and rationale be provided to explain why an extra 6 staff listed on page 77 of the agenda is required.
4. All EMRC councillors and CEOs be invited to participate in a workshop to be held on 11 June 2020 proceeding the Audit Committee meeting.

AC RESOLUTION(S)

MOVED CR BOYD

SECONDED CR POWELL

THAT:

1. THE AUDIT COMMITTEE DEFERS THE REPORT ITEM 11.3 EMRC 2020/2021 DRAFT ANNUAL BUDGET TO A FUTURE MEETING OF THE AUDIT COMMITTEE.
2. THE AUDIT COMMITTEE REQUESTS EXPLANATION AND A DETAILED BRIEFING BE PROVIDED WHICH INCLUDES A DETAILED EXPLANATION OF ALL CAPITAL BUDGET ITEMS LISTED AND THE OPERATING BUDGET IS DETAILED WITH EXPLANATIONS TO ALL ITEMS THAT HAVE CHANGED BY 10% FROM THE PREVIOUS YEAR.
3. DETAILED INFORMATION AND RATIONALE BE PROVIDED TO EXPLAIN WHY AN EXTRA 6 STAFF LISTED ON PAGE 77 OF THE AGENDA IS REQUIRED.
4. ALL EMRC COUNCILLORS AND CEOS BE INVITED TO PARTICIPATE IN A WORKSHOP TO BE HELD ON 11 JUNE 2020 PROCEEDING THE AUDIT COMMITTEE MEETING.

BUDGET NOTES

2020/2021 BUDGET

1. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies which have been adopted in the preparation of this financial report are presented below and have been consistently applied unless stated otherwise:

Basis of Preparation

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the *Local Government Act 1995* and accompanying regulations.

Except for cash flow information, the report has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

The Local Government Reporting Entity

All funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

(a) Trust Funds

Any monies held in the Trust Fund, which Council holds in a custodian role, are excluded from the Financial Report.

The EMRC currently does not hold any trust fund monies.

(b) Cash and Cash Equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and in hand and short-term deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts, where applicable, are included as short-term borrowings in current liabilities on the Statement of Financial Position.

The EMRC currently does not hold any bank overdrafts.

(c) Fixed Assets

Each class of fixed assets within either property, plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Mandatory Requirements to Revalue Non-Current Assets

In accordance with *Local Government (Financial Management) Regulations 1996 r.17A(4)*, the Council is required to revalue an asset within a period of 3 years but no more than 5 years after the day on which the asset was last valued or revalued.

The EMRC has elected to undertake the asset revaluations on its assets on a 4 year rotational cycle commencing 2018/2019 (Year 1) as follows:

- Year 1 - *No revaluations to be undertaken;*
- Year 2 - Plant and Equipment;
- Year 3 - Land and Buildings and Infrastructure; and
- Year 4 - Art Works.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Fixed Assets

Initial Recognition and Measurement between Mandatory Revaluation Dates

All assets are initially recognised at cost where the fair value of the asset at date of acquisition is equal to or above \$5,000. All assets are subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost on non-current assets constructed by the Council includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believed this approximates fair value. They will be subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework detailed above.

Revaluation

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Land Under Control

In accordance with *Local Government (Financial Management) Regulations 1996 r.16(a)*, the Council is required to include as an asset (by 30 June 2013), Crown Land operated by the local government as a golf course, showground, racecourse or other sporting or recreational facility of State or regional significance.

The Council does not have any crown land which comes under this regulation.

Land Under Roads

In Western Australia, all land under roads is Crown land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 *Land Under Roads* and the fact *Local Government (Financial Management) Regulations 1996 r.16(a)(i)* prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, *Local Government (Financial Management) Regulations 1996 r.16(a)(i)* prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, *Local Government (Financial Management) Regulations 1996 r.4(2)* provides, in the event of such an inconsistency, the *Local Government (Financial Management) Regulations* prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Council.

The EMRC does not hold any land under roads.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Fixed Assets (continued)

Depreciation

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- a) Restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount; or
- b) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Major depreciation rates used for each class of depreciable asset are:

• Buildings	0.20 - 32.00% (based on components)
• Structures	
General	0.56 - 18.10% (based on components)
Class III and IV Waste Cells	% of actual usage
• Plant	3.67 - 57.66%
• Furniture and fittings	5.97 - 33.33%
• Equipment	5.33 - 52.59%

The asset residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the Statement of Comprehensive Income in the period in which they arise.

When revalued assets are disposed of, amounts included in the revaluation surplus relating to that asset are transferred to retained surplus.

Capitalisation Threshold

Expenditure on items of equipment under \$5,000 are not capitalised. Rather, they are recorded on an asset inventory listing.

(d) Fair Value of Assets and Liabilities

When performing a revaluation, the Council uses a mix of both independent and management valuations using the following as a guide:

Fair Value is the price that Council would receive to sell the asset or would have to pay to transfer the liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Fair Value of Assets and Liabilities (continued)

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

Where possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair value of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation Techniques

The Council selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Council are consistent with one or more of the following valuation approaches:

Market Approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income Approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Fair Value of Assets and Liabilities (continued)

Cost Approach

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs which reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Council gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

As detailed above, the mandatory measurement framework imposed by the *Local Government (Financial Management) Regulations 1996* requires, as a minimum, all assets carried at a revalued amount to be revalued in accordance with the regulatory framework.

(e) Intangible Assets

Easements

Regulation 16 of the *Local Government (Financial Management) Regulations 1996* requires easements to be recognised as assets. The EMRC does not have any easements.

(f) Rates

The EMRC does not levy rates. Accordingly, rating information as required under the *Local Government (Financial Management) Regulations 1996* has not been presented in this financial report.

(g) Grants, Donations and Other Contributions

Grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions.

Conditional grants and contributions income is recognised subject to conditions applicable to the use of such income. Expenditure of those monies has been made in the manner specified under the conditions upon which the EMRC received those monies.

(h) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the local government prior to the end of the financial year that are unpaid and arise when the local government becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Impairment

In accordance with Australian Accounting Standards, the Council's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired. Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with AASB 136 'Impairment of Assets' and appropriate adjustments made.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another standard (e.g. *AASB 116 Property, Plant and Equipment*) whereby an impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other standard.

(j) Revenue Recognition

Waste Services

Revenue from waste services is recognised when the waste is received.

Generation of Gas Services

Revenue from the generation of gas services is recognised on an accrual basis. Proceeds from the sale of Renewable Energy Certificates are only recognised when the certificates are sold.

Interest Income

Interest income is recognised on an accrual basis.

Sale of Goods and Disposal of Assets

Revenue from the sale of goods and disposal of other assets is recognised when the Council has passed control of the goods or other assets to the buyer.

Rendering of Services

Revenue from the provision of services is recognised on an accrual basis.

Royalties

Royalty revenue is recognised on an accrual basis.

(k) Inventories

General

Inventories are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land Held for Resale

Land purchased for development and/or resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development and interest incurred on the financing of that land during its development. Interest and holding charges incurred after development is complete are recognised as expenses.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(l) Goods and Services Tax

In accordance with recommended practice, revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables in the Statement of Financial Position are stated inclusive of applicable GST. The net amount of GST recoverable from, or payable to the ATO is included with receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

(m) Provisions

Provisions are recognised when: The Council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Provisions are measured using the best estimate of the amounts required to settle the obligations at the end of the reporting period.

(n) Provision for Site Rehabilitation

A provision for the future costs associated with closing and restoring the landfill is recognised as liabilities within the financial accounts. The nature of work planned by Council includes cell capping, landform reconstruction, dismantling of site operating facilities and implementation of a revegetation plan to suit the final land use. The provision is based on the future value of the estimated current costs, determined on a discounted basis.

Increments in the provision are calculated annually based on the change in the net present value of the future cash outflows of costs for site rehabilitation (unwinding of the discount rate).

As per the independent engineers report from June 2015, the present value for the rehabilitation of the site has been calculated to be \$6,647,080 and has been deemed sufficient for post closure management purposes. This value will be reviewed on a five yearly cycle and is now due to be reviewed for implementation in the 2019/2020 Annual Financial Report.

The costs are measured using the best estimate of the amounts required and is reassessed internally on an annual basis with an independent review being undertaken on a five year cycle.

(o) Provision for Environmental Monitoring

A provision for the future costs associated with closing and restoring the landfill is recognised as liabilities within the financial accounts. The nature of work planned by Council includes monitoring of groundwater, surface water, leachate and landfill gas generation. The cost is based on estimated current costs, determined on a non-discounted basis.

Increments in the provision are calculated annually based on the change in the net present value of the future cash outflows of costs for environmental monitoring (unwinding of the discount rate).

As per the independent engineers report from June 2015, the present value for the environmental monitoring of the site has been calculated to be \$3,760,000 and has been deemed sufficient for post closure management purposes. This value will be reviewed on a five yearly cycle and is now due to be reviewed for implementation in the 2019/2020 Annual Financial Report.

The provision is measured using the best estimate of the amounts required and is reassessed internally on an annual basis with an independent review being undertaken on a five year cycle.

(p) Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

(q) Critical Accounting Estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The results of this experience and other factors combine to form the basis of making judgements about carrying values of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

(r) Trade and Other Receivables

Trade and other receivables include amounts due from member Councils and non-members for unpaid fees and charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairments).

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Collectability of trade receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(s) Employee Entitlements

The provisions for employee benefits relate to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

(i) Short-term Employee Benefits

Provision is made for the Council's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled. The Council's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

(ii) Other long-term Employee Benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations.

The Council's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Council does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions. The Council's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

(iii) Superannuation Fund

The Council contributes to the WA Local Government Superannuation Plan (LGSP) and other nominated funds for qualifying employees as per statutory requirements (9.50% for 2019/20). It also co-contributes to the LGSP and other nominated funds for full scheme members (5% for 2019/20). Contributions to defined contribution plans are recognised as an expense as they become payable.

(t) Rounding Of Amounts

All amounts shown in this annual financial report, other than the Schedule of Fees and Charges, are rounded to the nearest dollar. As a result of rounding, some minor reconciliation discrepancies may be present in the disclosures to the financial report.

(u) Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

(v) Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in this annual financial budget relate to the original budget estimate for the relevant item of disclosure.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(w) Leases

Leases of property, plant and equipment, where substantially all the risks and benefits incidental to the ownership of the asset, but not legal ownership, are transferred to the Council, are classified as finance leases. Finance leases are capitalised recording an asset and a liability equal to the present value of the minimum lease payments, including any guaranteed residual value. Leased assets are amortised over their estimated useful lives. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

The EMRC does not currently have any finance leases.

(x) Other Financial Assets

(i) Other Financial Assets at Amortised Cost

The Council classifies financial assets at amortised cost if both of the following criteria are met:

- The asset is held within a business model whose objective is to collect the contractual cashflows, and
- The contractual terms give rise to cash flows that are solely payments of principal and interest.

(ii) Financial Assets at Fair Value through Profit and Loss

The Council classifies the following financial assets at fair value through profit and loss:

- Debt investments which do not qualify for measurement at either amortised cost or fair value through other comprehensive income.
- Equity investments which the Council has not elected to recognise fair value gains and losses through other comprehensive income.

(y) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where the Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months.

Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for sale where it is held as non-current based on the Council's intentions to release for sale.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(z) Landfill Cells

There are three general components of cell construction:

- Cell excavation and development costs;
- Cell liner costs; and
- Cell capping costs.

All cell excavation and development costs and cell liner costs are capitalised and depreciated over the useful life of the cell based on the volumetric usage of the landfill cell air space during the year.

Cell capping costs are expensed as they occur as part of ongoing site rehabilitation.

11.4 AUDIT PLANNING FOR THE YEAR ENDING 30 JUNE 2020

REFERENCE: D2020/09825 (AC) – D2020/10540

PURPOSE OF REPORT

The purpose of this report is to provide the Council and Audit Committee with the Audit Planning Summary for the Year Ending 30 June 2020.

KEY POINTS AND RECOMMENDATION(S)

- The Terms of Reference of the Audit Committee includes a list of duties and responsibilities, among which is a requirement for the Committee to discuss with the external auditor the scope of the audit and the planning of the audit.
- The Audit Planning Summary for the Year Ending 30 June 2020 is provided for noting by the Audit Committee and Council.

Recommendation(s)

That Council notes the Audit Planning Summary for the Year Ending 30 June 2020 and the Audit Timetable forming attachments 1 and 2 to this report.

SOURCE OF REPORT

Chief Financial Officer

BACKGROUND

It is a requirement under s6.4 of the *Local Government Act 1995* that a Local Government is to prepare an annual financial report and submit it to its auditor by 30 September following each financial year.

On 7 April 2016 Circular No 3-2016 was received titled “*Auditing of Local Government by the Auditor General - Renewal of Audit Contracts*”, which outlined the intension to amend the *Local Government Act 1995* to allow for the Auditor General and the OAG to take responsibility for the local government financial audits from 1 July 2017.

The *Local Government Amendment (Auditing) Act 2017* (No 5 of 2017) - An Act to amend the *Local Government Act 1995* and provide for the auditing of local governments by the Auditor General and for related purposes was assented to on 1 September 2017.

Item 11.4 continued

REPORT

The Terms of Reference of the Audit Committee includes a list of duties and responsibilities, among which (clauses 2.5 (a) (v) and (vi) are requirements for the Committee to:

- (i) Review Council's draft annual financial report, focusing on:
 - Accounting policies and practices;
 - Changes to accounting policies and practices;
 - The process used in making significant accounting estimates;
 - Significant adjustments to the financial report (if any) arising from the audit process;
 - Compliance with accounting standards and other reporting requirements; and
 - Significant variances from prior years.
- (ii) Recommend adoption of the annual financial report to Council.

Included the Terms of Reference for the Audit Committee - Section 2 Responsibilities, is one of the listed duties of the Audit Committee is Item 2.7 which states as follows:

- Discuss with the external auditor the scope of the audit and the planning of the audit.

The Auditors have provided the following documents, forming attachments 1 and 2 of this report for noting:

- Audit Planning Summary for the year ending 30 June 2020; and
- 2019/2020 Audit Timetable.

In view of the ongoing situation regarding COVID-19 the auditors have advised that at this stage it would be preferable if these documents were put to the committee for their review and noting rather than have the auditors meet and address the Audit Committee in person.

Should any queries be raised regarding the audit plan these could be taken on notice and conveyed to the auditors who would be able to respond with the audit committee members then being duly advised of the responses.

INTRODUCTION

Auditor General

Following proclamation of the Local Government Amendment (Auditing) Act 2017, the Auditor General becomes responsible for the annual financial report audit of Western Australian Local Governments.

The Act allows the Auditor General to contract out financial audits however by the year ending 30 June 2021 all Western Australian Local Government audits will become the responsibility of the Auditor General and Office of the Auditor General (“OAG”).

Contractor Appointment – Butler Settineri Audit (“BSA”)

BSA has been contracted by the Auditor General to perform the Eastern Metropolitan Regional Council financial report audit on the Auditor General’s behalf for the year ending 30 June 2020.

Our audit procedures will be conducted under the direction of the Auditor General, who will retain responsibility for forming the audit opinion and issuing the audit report to the Eastern Metropolitan Regional Council.

BSA is required to report any matter to the Auditor General which may affect the Auditor General’s responsibilities under the Auditor General Act 2006.

Responsibility of the Council and the CEO

It is important to note that:

1. Under the *Local Government Act 1995* and associated regulations, the Council and the CEO are responsible for keeping proper accounts and records, maintaining effective internal controls, preparing the annual financial report, and complying with the Local Government Act and Regulations, and other legislative requirements.
2. Under the *Local Government Act 1995* and associated regulations, the Council and the CEO have responsibility for maintaining internal controls that prevent or detect fraud or error and to ensure regulatory compliance. The Audit and Risk Committee and the Auditor General should be informed by management of any fraud or material errors. During the audit we will make inquiries with management about their process for identifying and responding to the risks of fraud, including management override. It should be noted that our audit is not designed to detect fraud, however should instances of fraud come to our attention, we will report them to you.
3. The Council and CEO are responsible for ensuring the accuracy and fair presentation of all information in its annual report, and that it is consistent with the audited annual financial statements. We do not provide assurance over your annual report.
4. An audit does not guarantee that every amount and disclosure in the annual financial report is error free. Also, an audit does not examine all evidence and every transaction. However, our audit procedures should identify errors or omissions significant enough to adversely affect the decisions of users of the annual financial report.

Our audit is conducted in accordance with Australian Auditing Standards. Our aim is to provide reasonable assurance whether the annual financial report is free of material misstatement, whether due to fraud or error. We perform audit procedures to assess whether, in all material respects, the annual financial report is presented fairly in accordance with the *Local Government Act 1995*, *Local Government (Financial Management) Regulations 1996* and Australian Accounting Standards.

The nature of the audit is influenced by factors such as:

- the use of professional judgement
- selective testing
- the inherent limitations of internal controls
- the availability of persuasive rather than conclusive evidence.

As a result, an audit cannot guarantee that all material misstatements will be detected. We examine, on a test basis, information to provide evidence supporting the amounts and disclosures in the annual financial report, and assess the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by management.

Conflicts of Interest

We confirm we have completed our independence evaluation and are satisfied we do not have any actual or perceived conflicts of interest in completing the annual audit of the Eastern Metropolitan Regional Council on behalf of the Auditor General.

BSA's approach is designed to:

- Focus on key risks and financial areas; and
- Add value to your business by providing constructive ideas for improving internal controls and on-going business systems

The partner-led assurance service team is committed to meeting specific business needs by:

- Working closely with you to get to know the business whilst maintaining independence;
- Using the latest computerised systems and audit techniques; and
- Conducting an in-depth review of financial records to enable identification of key areas where additional support and attention will improve the business.

The audit will meet the statutory requirements under the *Local Government Act 1995* and *Regulations* and will be carried out in accordance with the Australian Auditing Standards.

We will carry out such work as is necessary to form an opinion as to whether the:

- a) Accounts of the Council are properly kept; and
- b) Annual financial report of the Council,
 - i) Is prepared in accordance with its financial records; and
 - ii) Represents fairly, in all material respects, the results of the operations of the Council for the year ended 30 June 2020 and its financial position at the end of the period in accordance with the Local Government Act 1995 (the Act) and, to the extent that they are not inconsistent with the Act, Australian Accounting Standards.

We will also include the following matters in the auditor's report:

- a) Any material matters that in the opinion of the auditor indicate significant adverse trends in the financial position or the financial management practices of the Council;
- b) Any material non-compliance with Part 6 of the Act, the Local Government (Financial Management Regulations 1996 or applicable financial controls in any other written law;
- c) Details of whether information and explanations were obtained by the auditor;
- d) A report on the conduct of the audit; and
- e) The opinion of the auditor as to whether or not the asset consumption ratio and the asset renewal funding ratio included in the annual financial report are supported by verifiable information and reasonable assumptions.

In addition to the standard audit structure, additional audit matters may be performed upon direction from yourself.

The attendance of at least one meeting per year of the Council's audit and risk committee by a member of our audit team may also be carried out if required. The engagement partner and audit team will visit the Council's offices during each stage of the audit and will be available for subsequent meetings at the Council's request.

OUR AUDIT APPROACH

Our audit approach comprises the following steps:

Pre-engagement activities

- Legislative requirements of independence

Risk assessment procedures

- Discussions with the management team and members of the audit and risk committee
- Review of key accounting systems and operations
- Understand and evaluate control environment
- Identify and assess risk
- Identify significant accounts
- Develop procedures to address risk and significant accounts

Audit procedures

- Assess reliance on controls
- Perform tests of control, analytical review procedures and tests of detail at transaction level

Completion and review

- Completion procedures
- Evaluation of audit evidence
- Review format of the financial report
- Verify balances and disclosures in the financial report, including the Notes

Reporting and communication

- Form an opinion and provide opinion to OAG
- Report to management and OAG

Our audit approach involves assessing your overall control environment and understanding key business processes/cycles and internal controls relevant to the audit.

The level of testing will be dependent on our assessment of the risk in each business cycle. We plan to cover the following cycles:

- Revenue
- Expenditure
- Payroll
- Cash and Financing
- Property, Plant, Equipment and Infrastructure

The extent of our reliance on controls, together with the materiality level, determines the nature and extent of our audit procedures to verify individual account balances.

Our audit will be split into two components as follows:

Interim audit

This includes:

1. Understanding your current business practices
2. Understanding the control environment and evaluating the design and implementation of key controls and, where appropriate, whether they are operating effectively
3. Testing transactions to confirm the accuracy and completeness of processing accounting transactions, namely rates and grant revenue, expenditure and payroll
4. Clarifying significant accounting issues before the annual financial report is prepared for audit.

Final audit

This focuses on verifying the annual financial report and associated notes, and includes:

1. Verifying material account balances using a combination of substantive analytical procedures, tests of details, substantiation to subsidiary records and confirmation with external parties
2. Reviewing the annual financial report and notes for compliance with the *Local Government Act 1995*, *Local Government (Financial Management) Regulations 1996* and Australian Accounting Standards.

BUSINESS OPERATIONS

The Eastern Metropolitan Regional Council (EMRC) is a progressive and innovative regional local government working on behalf of six member Councils located in Perth's Eastern Region. EMRC is responsible for delivering innovative and sustainable waste management solutions for the benefit of the community and the environment.

The current participating councils are:

- Town of Bassendean
- City of Bayswater
- City of Belmont
- City of Kalamunda
- Shire of Mundaring
- City of Swan

The EMRC provides a broad range of services across the region including waste management and education, resource recovery, environmental management and regional development. Working in partnership with our member Councils and other stakeholders, the EMRC delivers local and regional scale projects across each of these areas for the benefit of the region.

No significant changes to the Council's accounting procedures and policies were made during the year.

The Council uses Synergy Soft accounting system. Our primary contacts at the Council are David Ameduri (Finance Manager) and Le Truong (Finance Team Leader).

SIGNIFICANT RISKS AND AUDIT FOCUS AREAS

COMPLIANCE WITH LAWS AND REGULATIONS

Management is to ensure the entity complies with the Local Government Act 1995 (as amended), and the Local Government (Financial Management) Regulations 1996 (as amended).

We are required by the Local Government Act 1995 and Local Government (Audit) Regulations 1996 to test compliance with the Act and Regulation.

GOING CONCERN AND ADVERSE FINANCIAL TRENDS

Auditing Standard ASA 570 *Going Concern* requires that we consider the appropriateness of the going concern assumption at the planning stage.

The Council, being a regional council is financially supported by its member councils under the Establishment Agreement; hence going concern assumption is deemed reasonable.

However, the auditor's report, per the Local Government (Audit) Regulations 1996, is still required to disclose if there are any significant adverse trends in the financial position or financial practices.

Based on the 2019/20 Annual Budget, the Council is expecting a net surplus of \$8,758,333. We further note that as at 30 June 2019, the council has a net current asset position of \$100,540,480 of which \$92,245,429 relates to restricted cash reserves with further non-current liabilities of \$4,493,417.

The Council's liability is significantly less than its unrestricted cash holdings. Hence it is reasonable to expect that the Council is able to pay off its liabilities when it becomes due and payable.

Hence the going concern basis of accounting is considered appropriate at planning stage.

ACCOUNTING POLICIES

The Council appears to be adopting all the recognition and measurement requirements of the applicable Australian Accounting Standards.

Three potentially major changes to accounting policies noted during the year.

We anticipate that you consider the impact on your financial report for the adoption of the following accounting standards:

- **AASB 15 – Revenue Recognition**
Revenue from contracts with customers may result in a significant change in the recognition and measurement of the Council's revenue as income previously recognised as revenue may be recognised as deferred revenue.
- **AASB 1058 - Income of Not-for-Profit Entities**
A NFP entity will recognise income immediately for the excess of the initial carrying amount (generally fair value) of the asset acquired over the consideration paid/payable and any other related amounts (such as revenue or a contract liability for a performance obligation under AASB 15, a contribution by owners, a lease liability (e.g. a peppercorn lease), a financial liability (e.g. prepaid rates received by a local government) or a provision, as applicable). An exception is a financial asset received to acquire or construct a recognisable non-financial asset (i.e. a capital grant) which will result in an initial liability, with income recognised when or as the obligation is satisfied.
- **AASB 16 – Leases**
This standard removes the concept of operating and finance leases for lessees which exists under AASB 117 Leases. All leases will be recognised in the statement of financial position as a right of use asset and a lease liability.

INTERNAL AUDIT

We seek to rely on internal audit work to reduce our own audit work wherever possible. This avoids duplication of audit effort and the associated workload on your operational and administrative staff.

This year, no reliance is planned to be placed on internal audits as no internal audits are conducted.

MANAGEMENT REPRESENTATION LETTER

Our audit procedures assume that management expects to be in a position to sign a management representation letter. The proposed letter for this purpose is attached.

This letter should be reviewed and tailored to meet your Council's particular circumstances, and be signed and dated by the CEO as close as practicable to the date of the proposed auditor's report. Ordinarily, this would be no longer than five working days prior to the issue of the auditor's report.

Please bring to the attention of the Chairman that we will also be relying on the signed Statement by CEO in the annual financial report as evidence that they confirm that:

- they have fulfilled their responsibility for the preparation of the annual financial report in accordance with the *Local Government Act 1995*, *Local Government (Financial Management) Regulations 1996* and Australian Accounting Standards
- they have provided us with all relevant information necessary or requested for the purpose of the audit
- all transactions have been recorded and are reflected in the annual financial report.

RELATED PARTIES

Section 7.12AL of the *Local Government Act 1995* applies section 17 of the *Auditor General Act 2006* to a local government. Section 17 requires a local government to advise the Auditor General in writing of details of all related parties and entities that are in existence.

REPORTING PROTOCOLS

Significant issues identified during the course of the audit will be discussed with relevant staff and management as soon as possible after being identified. Draft management letters will be provided to your CEO (or other nominated representative) for coordination of comments from appropriate members of your management. We request that these be returned quickly, preferably within 10 working days.

At the conclusion of the audit, the abovementioned management letter will accompany the auditor's report and the audited annual financial report forwarded to the President, the CEO and the Minister for Local Government. The management letter is intended to communicate issues arising from the audit that may impact on internal control, compliance, and financial reporting.

Where considered appropriate, and to ensure timely reporting of audit findings and action by management, interim management letters may be issued to the CEO. Interim management letters will be forwarded to the President and Minister with the auditor's report.

SPECIFIC AUDIT REQUIREMENTS

We will discuss our requirements with your staff to facilitate a timely, efficient and effective audit. We will formally agree our information requirements and timeframes for the audit with your CEO and by using your staff to have various documents readily available when we perform our audit.

Please note however that in several instances, particularly during our audit sampling at the interim visits, audit staff will need to retrieve some evidence themselves, rather than being given the evidence by your staff. This is essential for an independent audit.

Audit Result Report – Annual 2018-19 Financial Audits of Local Government Entities (March 2020) – This report summarises the results of 112 local government entities' annual financial report audits for the year ended 30 June 2019. All but 5 auditor's reports included clear (unqualified) audit opinions on the financial reports. The OAG reported 93 material matters of non-compliance with the Local Government Act 1995, Local Government (Financial Management) Regulations 1996, or other written law in 48 of our auditor's reports. In addition, 823 financial management and control matters of varying significance were also reported to management in the management letters. In accordance with the Local Government (Audit) Regulations 1996, the OAG reported 106 ratios with adverse trends in the financial position of 72 LG's.
